The move would be a logical step in view of the elevation yesterday of Avery Brundage of Chicago to the presidency of the International Olympic Committee.

# GOOD WORK BY NAVY SAVES 92 OFF TUG SARSI

TOKYO /#-Three U. S. warships began an almost immediate search last Wednesday midnight for survivors of the Navy tug Sarsi. which hit a mine off Korea and sank without a chance to call for help, the Navy said today.

Quickness of the search probably was largely responsible for 92 of the tug's 97 crewmen being saved. Four of the survivors—due at the Sasebo Navy Base, Southern Japan today-were seriously hurt.

The Navy said two crewmen

were killed and three missing. The 205-foot Sarsı sank in 120 feet of water within 20 minutes after hitting the mine three miles off Hungnam, the Korean East Coast port from U. N. forces were evacuated during the first Commuinst offensive in December, 1950.
